

Janet Chen 陳毓聆

Senior Product Manager / Product Planner • B2B2C SaaS

Email u8004800@gmail.com LinkedIn [linkedin.com/in/janetcyl](https://www.linkedin.com/in/janetcyl)

Summary

Product Manager with 9 years of B2B2C SaaS experience in feature planning, requirements analysis, and cross-functional collaboration. Owns the full product lifecycle — from concept and PRDs through development to launch and optimization — bridging business needs, UX, and technical execution. Bilingual (TOEIC 990). Led cross-border payments, on-site ticketing, and mobile-learning projects that lifted conversion, cut operating cost, and expanded markets.

Professional Experience

Product Manager • KKday / rezio

Feb 2021 – Sep 2025

rezio is an enterprise SaaS booking and operations platform for travel suppliers, serving 2,000+ merchants globally. Led 20+ international projects.

- **Product Strategy & Delivery:** Owned specs, PRDs, development coordination, and launch validation across the platform, partnering with design, engineering, and QA.
- **Cross-border Payments:** Led PayPal Checkout integration across the Philippines, Thailand, and Indonesia (collect/disburse, pre-auth, multi-currency) — projected +15% international order completion; featured in business media.
- **OMO On-site Ticketing (rezio TIX):** Integrated Web/App/POS/Kiosk ticketing with real-time inventory and settlement sync; cut operating cost 30% at Heping Island Geopark.
- **Localization & Backend Revamp:** Drove Japan-market localization of inventory and order management to grow adoption; optimized subscription and account management (Rezio Console).
- **AI Translation PoC:** Benchmarked traditional MT against multiple LLMs, designed prompt engineering, and defined the MVP for rezio's future AI translation.

Product Design Lead • Learning Digital

Mar 2017 – Apr 2020

Led planning and full-cycle development of OrcaHCM, a 12-module / 150+ feature enterprise HR platform, managing a cross-functional team.

- **Agile Time-to-Market:** With no prior app experience, shipped the 60+-screen Orca Go mobile learning app in 4 months, winning new clients including My Humble House and JapanMedic.
- **Core Module Optimization:** Redesigned the Job Description and Course/Micro-learning modules, improving usability and satisfaction for clients like China Airlines and Gogoro.
- **Cross-Functional Leadership:** Bridged engineering, sales, design, and partners; drove roadmap prioritization and on-time delivery.

Product Planner / Product Designer • Learning Digital

Sep 2013 – Mar 2017

- Planned features and flows and produced wireframes and specs; ran QA/usability testing and handled EN/ZH translation of interfaces and technical docs to support global rollout.
